

The Joseph Factor - Special Free Report

Learn Unique Survival Strategies! This Could Save Your Family!

The Joseph Factor is a system and a manual that shares vital survival information and it has a built in income that goes with it in the form of a reseller program. America and the world is in critical condition financially and we at The Joseph Factor feel that people should know that they have options now as they enter the future and the uncertain times. Joseph was a character in the Bible that was able to save many from starvation and death because of Godly wisdom and prophetic insights. Our system at The Joseph Factor discusses the hush, hush subject of financial collapse, financial survival, options and ways to act now to prepare, precious metal investment, land investment, how to handle current debt of both credit card and mortgages, growing food, generators for power, and much, much more. Also included are many Biblical truths to help individuals with faith for hard times. Included is special information on certain coins you can save right now that are "in circulation" that cost you nothing to collect. People need information on bartering which is discussed in our manual, as well as how to store now what is barter-able later. Also included are locations of generators, survival foods, reputable precious metal outlets, and more. Also included are community ideas for families, churches, associations, clubs, etc. to create food storing programs. We call this **Concentric Food Survival Management**.

Be Like Joseph of Egypt! - Joseph of the Bible helped people survive in a very tough time, and so can you! You can be the Joseph in your generation, as you grasp our vision and run with it to help people break out of hard times! We call this the Joseph Factor, as you factor in wisdom like Joseph had and solutions to help people in a Godly way, showing them how to earn survival funds, to pick up slack in their incomes, to replace lost jobs, maybe even to get off of the government welfare rolls. This can help people get part time money, or even full time money, and it harnesses the people you help to make you extra money too! You can even do this anonymously without ever approaching anyone you know, unless you want to.

Who Are We? - Greg and Debbie Nichols own the Joseph Factor, which is part of The MFN Group. Greg and Debbie own a real estate firm, they fund all kinds of projects, and they own a publishing entity. Greg and Debbie are also both ordained Christian ministers. Greg is an Internet entrepreneur and trainer. Greg and Debbie set this system up to help people prepare for times to come, to get out of debt, to break through mortgage and poverty barriers, and to give people a way to earn extra living funds for their families. There are other ways to connect with Greg and Debbie in other income ventures once you are in the Joseph Factor system, to earn larger funds, even to retire on! Greg and Debbie do regular Internet Biblical success teachings online on an Internet radio program! You get plenty of online support. You may also access many Biblical teachings online by Greg and Debbie Nichols.

Own Your Own Home Based Business! - We have tough times in our country, and good employment is scarce. You are about to read about an alternative method to earn money, and lots of it. This is totally legal, and something you can be proud of. Now you can market a system with our firm, a system that helps you learn about different ways to make money, to buy real estate investments, to make gold and silver investments, to learn funding and financial concepts, and to help people get their inventions, hi-tech and film projects off the ground with the funding of those projects, and to learn how to market things on the Internet! The cost of gasoline is up, not everyone has a vehicle, good paying jobs are competitive, and all these factors and more make owning your own home based business very attractive. Also, single or stay at home moms, retirees, disabled people, college students and even homeless people need ways to bring in income that can break them through the poverty barrier. Once you join us, we have online materials and training to help you also market online to the whole world.

How Can You Make Money? - You just share this free report, that is all, just hand it out, or mail it or drop it on doorsteps; or send it by email or put it on your webpage, that is all you do! When people respond to your ID number, you make money! Is this an MLM? No, it is not. Although you get paid on duplication of others efforts, this does not qualify for being an MLM, it is rather a simple reseller program, where you work with a top notch and honest Christian based firm! How simple can it get, you just hand out or deliver a free report to people, and you are simply showing them a way to protect their families and to make money, which is a service and benefit to them. Do you know people who need honest and legitimate money based on working with their hands and minds? Of course you do. Our system

shows you and other people great ways to earn money and even allows you to partner with us in many activities. Our offer here is only the starting path to bigger things!

How Much Can You Earn? - First understand that you must buy our system to market it. In our system is how to work it, and what you need to know. You do not need to be online to begin! Our entry cost for our manual is \$59.95 plus tax and shipping, money back guaranteed. This one time cost for our initial product system begins to get you paid for a lifetime as long as you resell for us. Then, whenever any person buys it connected with your ID number that we assign you, you get \$20 from our firm, mailed to you, paid twice monthly. You can sell 2-10 of these a week, or more. 2 would be \$40 weekly, 5 would be \$100 weekly, and 10 would be \$200 weekly. Could this help your bottom line and help you break through or survive? It does not stop there. Anytime one of your buyers resells our product, you get \$15. This is effortless 2nd tier income for you. People work for you, and make you money. What if 20 people were going strong marketing this system under you on your 2nd tier? You do not even have to know them or train them or have any dealings with them unless you want to. We handle all that! If each of them did 2 sales weekly, then you would get \$15 a week for each person they sold our system to, and that is \$600 weekly. (20 people x \$15 each x2) This may take time to build up to, but you could make money your very first day with us at \$20 a pop. We do not want to hype this, many will make just \$200-\$500 monthly at this, but the potential is there for much more. Even that much would solve many issues for most people. Imagine earning money while you sleep with a sales force out there working for you!! The product will really help you and the income is just a special perk to help your family. You can buy the product and you do not have to market it whatsoever!

Progressive Income Also! - There is another product level up front here which costs \$139.95 plus tax and shipping. You may leverage in using earnings from the lower cost product or you can buy both products at \$139.95 - that means the 1st one is free, and then get paid a higher commission if people buy the larger product from you. It will save you money if you buy both products now for the price of the 2nd one, but if you can't afford it, you can buy the lower one now and pay the full price later when you can, out of your earnings. We even have a full 7 day money back guarantee with no questions asked. So with no risk, because of our guarantee, and also the ability to get your money back with just 3 sales, (3 x \$20) we have made this safe and easy for most to do. It works! You can build this into \$200 - \$500 a week potential with no risk, and just some part time work, maybe even just 1 hour a day! Many people who don't work would like to if they knew a way to do so. The \$139.95 product purchase which is Internet Marketing Training pays you \$45 1st level commissions and \$25 2nd level commissions. Lastly, there is a 3rd product you can check out later with even higher commissions. The same buyers buy that one from you that buy the 1st two products. There is no reason this cannot develop into \$1000 to \$2000 weekly as it grows. Check out the website for details on income potentials.
